Hi Karen -

I am working on revising the table - based on your attached comments. While doing so - I noticed your note about DEP sending us the data in an Excel file on 1/18/12. Would you please e-mail the Excel file to me when you have a chance.

Thanks - Kelley

Karen,

I wanted to give you one last chance to review the attached document which will go into our Administrative Record.

Let me know so we can proceed with that process.

thanks. Rich

p.s. Gary Newhart, EPA ERT will be calling you to discuss effort in looking at metals background concentrations in the Dimock area groundwater. We have some contractor support in looking at that issue. I know you are looking at it to and wanted to make sure we coordinate.

I cross checked the scanned sheet from Karen Johnson (also attached) with the data that we had received in December. I typed her notes (clarified) on the table that we compiled. The only data point that I was not able to find was for well #8 Ex. 5 - Personal Privacy for DEHP the second notation, so I did not include it. You can see the difference if you look at the table Rich asked me to compile and her scanned sheet. This does not mean that the data point was incorrect, I could not find the reference. I stuck with the original 8 that we had and did not add the additional ones from Karen's sheet. Hope this is what was needed - thanks -
